

**AS-NEEDED ADMINISTRATION OF ORALLY ACTIVE ANDROGENIC AGENTS
TO ENHANCE FEMALE SEXUAL DESIRE AND RESPONSIVENESS**

5

ABSTRACT OF THE DISCLOSURE

10 A method is provided for enhancing a female individual's sexual desire and
responsiveness. The method involves oral administration of a dosage form containing an
effective amount of an orally active androgenic agent, and is on an as-needed basis rather
than involving chronic pharmacotherapy. Oral pharmaceutical compositions, dosage
forms and kits for carrying out the method are provided as well.
